- pesticides

CHARACTERISTICS

Peroxide Value: < 2 mEq O₂/kg

Free Fatty Acids: < 2%

Color: light brown

Taste/Smell: mild chicken

Density: 600 g/l

Antioxidants: BHT, BHA, PG (propyl gallate) and citric acid. Rosemaric extract, δ -tocopherol on demand.

SOURCE AND PROCESS

Made from fresh foodgrade poultry skin and meat, EM'CRISP is obtained by gently baking and drying of the raw material. The result is an unique dry powder to top up your petfood products.

ADVANTAGES

EM'CRISP is a poultry protein and flavour source with excellent nutritional and functional properties due to a higher percentage of very digestible protein (high in collagen).

PACKAGING

Big Bags up to 1500 kg.

20 kg bags.

Keep cool in a dry, dark place.

Shelf life: minimal 9 months from date of manufacture.
